

The purpose of the BMS Technical Manual is to provide technical information about BMS 4.35 in three levels: for the user, the advanced user and the third-party developer. It will document the use of some tool functions (Displays, Fmaps, Avionics configurator), It will document the structure of some BMS 4.35 user files (IFF, ATC, mission, DTC, ...) It will document training scripts, IVC settings and procedures for third-party developers.

This manual is part of the BMS 4.35 documentation suite:

- TO-BMS1F-16CM-1: Flight Manual for BMS F-16C/D b50&52,
- TO-BMS1F-16CM-34: Advanced avionics & weapon systems,
- BMS-Manual: All BMS 4.35 simulation specific aspects,
- BMS-Training Manual: Documenting the 4.35 training missions,
- BMS Comms and Nav book: Documenting the new ATC and navigation procedures.
- BMS Naval OPS: Documenting carrier operations with F/A-18 & AV-8B.
- BMS Korea Navigation documents: AIP, charts,
- F-16 BMS Checklists.
